2019 Winter & Spring Classes

Margo Johnson - Learn to Sew Series - Get out your feet .

How many times have you looked in your sewing box at all the different feet your machine came with and wondered how to use them. We will not be making a project but will be making samples of each application, so it would be handy to bring a notebook that you can staple samples into. Bring your sewing machine and the feet to go with it. You will also need thread –any color is fine. But I would suggest not black, as it is sometimes harder to see the stitches at night.
